

- 3) Choose up to 3 strategies your team would like to focus on to integrate resident quality improvement projects with clinic transformation efforts:
- Residents know about clinic transformation goals.
 - Residents are assigned a clinic transformation goal to work on.
 - Residents are required to choose a project that will move a clinic transformation goal forward.
 - Residents are required to name the building block(s) they will be advancing in their CQI project.
 - Residents present to clinic staff on CQI project.
 - Residents must work with clinic staff on CQI project.
 - Clinic staff drives resident quality improvement project selection.
 - A resident QI representative sits on management team.
 - A resident QI representative sits on the Quality Improvement Oversight Committee.
 - Residents rotate through an assistant medical director block.
